## **MPR Certified as a V3 Employer**

**Alexandria, VA (March 29, 2018)** – MPR was just named a Virginia Values Veterans (V3) company. The V3 accreditation is a Virginia State training and certification program for employers to help implement nationally recognized best practices in recruiting, hiring, and retaining highly-skilled and dependable U.S. military veterans.

The V3 community is represented by companies who have demonstrated to the Commonwealth of Virginia that they have made a public commitment to hire veterans into their workforce. “MPR has long benefitted from hiring veterans,” MPR Principal Officer, Bob Carritte said. “We are honored to receive this certification, and look forward to working with the V3 Program to develop long-term strategies for connecting with more of this country’s great veterans.” The traits found in a veteran; discipline, steadiness, and a strong work ethic, are qualities that embody MPR. “Veterans at MPR bring the same values of excellence and integrity that are central to our core culture,” MPR Director of Human Resources Nancy Svites said.

To be considered for the V3 Certification, companies must make a public commitment to hire qualified veterans, complete V3 internal trainings, and submit a formal Organizational Veteran Hiring Plan to the Virginia Department of Veterans Services.

### **About MPR**

MPR Associates is an employee-owned specialty engineering and management services firm founded in 1964 and headquartered in Alexandria, VA. MPR provides solutions to clients in the energy, federal government, and health and life sciences industries. The company brings value to its clients by delivering innovative, safe, reliable, and cost-effective technical solutions across the entire project or product lifecycle.
